

## Rancher Deceased In Cabin on the Kalum Road

Paul Hoffman brought word into town on Saturday night that he had found Francis Albert Schrader lying dead in his cabin at the ten and a half mile on the Kalum road.

Hoffman and his son Harry passed on Tuesday night at about 9 o'clock on their way to the trap line, and noticed that there was no smoke. They concluded that Schrader was in bed. They also noticed sleigh tracks, as if the deceased had started for town, had gone about a quarter of a mile and turned back. On their way into town late Saturday afternoon they again noticed the absence of smoke or any sign of life. Harry went to investigate. He found the body along side the stove. Hoffman, sr., then looked into matters, and as Schrader's three horses were in the barn, and had been without food for some days, Harry remained to get food for them from Slim Jordan's pole camp, while the older man came along into town to report.

On Sunday morning Coun. McKenney, Lewis McKenney, Paul Hoffman and the Coroner went out to investigate. At five mile it was found the snow was too deep for a truck to go any farther, and returning to Carl Pohle's mill a horse and go-devil was secured for the rest of the journey. The six mile trip out took about three hours, and after investigating the surroundings and interior of the cabin the body was brought into town for medical examination and further investigation.

Deceased came to the district about four and a half years ago, coming from the prairies and bringing with him about forty head of stock. From the first he realized that the valley was not suited for range purposes, but struggled along. Last summer he grazed his stock north of Kalum Lake, coming down to the Cavanille cabin, where he died, in the fall. He was an American and a member of the Order of Eagles, and in his earlier life had followed the occupation of horseshoer. He was a native of Allegany, N.Y., and was sixty eight years old.

### GONE TO ANNUAL MEETING

Capt. John Willman, general manager of the Columario Gold Mines Ltd., at Usk, left on Monday night last for Toronto to attend the annual meeting of the company on January 24th. Mr. Batten, of Vancouver, the engineer in charge, will also attend the meeting. Capt. Willman expects to be home by the first of February and by that time have everything in shape to resume operations at the mine on a larger scale than ever and to get the mill running to capacity.

### MOVED FROM TELKWA

Mr. and Mrs. Greenfield and young daughter left last Thursday for Vancouver. From there Mr. Greenfield has not decided where he will go or what he will do. He closed out his hotel and other business interests in Telkwa where he has been for several years—just another victim of conditions, but one who was wise enough to quit before everything was lost. It has taken a great deal to hang on during the depression (just a nice name given to the cleaning process started a few years ago by the money sharks).

The district has been visited by a second cold snap, but the temperature did not get quite so low as at Christ mas time.

## Skeena River Delegates Went To Convention

Harry Franks of Woodcock and John Thompson of Cedarvale were delegates to the C. C. F. Convention in Prince Rupert last week. J. E. Panter of Smithers, the defeated candidate in the last provincial election, was the unanimous choice of the convention. The provincial council in Vancouver consented to Mr. Panter's name being considered by the convention, but two or three other names were also approved by the Vancouver bosses. It seems that unless a name is approved by the provincial council in Vancouver that name cannot be presented to a C.C.F. nominating convention. But Mr. Panter passed inspection and everyone was happy.

Mr. Franks and Mr. Thompson went back to their respective homes quite happy and loaded up with literature for the enlightenment of the masses.

But since Premier Bennett has been giving the world his ideas as to the needs of Canada, a lot of the C. C. F. literature will need revising.

Even Mr. Woodsworth is now very much in favor of supporting Mr. Bennett in his new program.

### LEGISLATURE TO OPEN FEB 12

The Legislature of British Columbia will meet on February 12 for the second session under Premier Pattullo. It is reported that the most important piece of legislation will be health insurance, to be introduced by Hon. Mr. Weir. The next important feature will be a balanced budget. That is the greatest wish of the minister of finance.

## W. A. to H. H. Elect Officers Good Reports

The annual meeting of the W. A. to the H. H. was held in the United Church on Tuesday afternoon last and was attended by a goodly number of the ladies who are interested in hospital work. President Mrs. W. H. Russell was in the chair. Minutes of the last annual meeting were read and various reports were presented and are to be presented to the annual meeting of hospital patrons in the near future. The reports indicated that, in spite of adverse business conditions, the auxiliary had a very successful year.

The officers for the next year are: Pres.—Mrs. W. H. Russell Vice-Pres.—Mrs. W. H. Sharpe Treasurer—Mrs. Jas. Turnbull Secretary—Mrs. S. Mallinson Buying Committee—Mrs. John Newell and Mrs. Shearman.

Visiting Committee—Mrs. A. Grant Membership Committee—Mrs. W. W. Anderson.

Mrs. C. H. Sawle was again chosen representative for New Hazelton.

The ladies have decided to try this year to bring the auxiliary back to the old standard. Conditions are on the upgrade and efforts will be made to take advantage of it.

### THE HORNBY PLAN FOR LAND SETTLEMENT

According to the Nechako Chronicle Brigadier General M. L. Hornby of Lethbridge, Alta., will pay a visit to the Board of Trade at Vanderhoof during the present week to discuss the Hornby Plan of settlement in that district. After that meeting the General will proceed to the Pacific coast.

Hon. Wm. Lyon McKenzie King

What will be his answer to Canada's Premier and his program of reform for the benefit of Canadians?

## Prince Rupert

By The Sea

From Our Own Reporter

After being tied up in Vancouver for years the SS Prince Robert, last word in north coast luxury travel, will make four cruises to Alaska next summer. The months will be June, July and August. To put her in commission will need much work, and there is a possibility of the job being done in the Prince Rupert yards.

The C. C. F. convention in the city to nominate a candidate for the Dominion riding of Skeena, chose J. E. Panter, chief telegraph despatcher at Smithers. The choice was made unanimously and appears to have general endorsement in C.C.F. circles on the coast.

January is early for spring salmon in quantity, to be found in the harbor of Prince Rupert, yet the "springs" must eat, and having hearty appetites follow large schools of herring into the bay. Jack Eyolfson, fisherman, noticed the herring, reasoned that salmon must be near, went out trolling and had soon hooked about two hundred pounds of choice fish. One of them weighed about fifty pounds, and George Frizzell, smiling his usual big broad smile, bought the lot.

The site of Luke Marron's old roller skating rink on 6th Ave., burned a number of years ago, is now occupied by the Northern B. C. Regiment, and the place is known as the Armory. The floor is well adapted for drilling, sports or dancing, and the officers' mess, sergeants' mess, recreation room orderly rooms and other regimental facilities will suitably serve for many years to come. Maren, when last heard of, was living with his brother in Montana.

The packing of tomatoes in Bermuda is based on what is popularly known as the British Columbia 20-lb. box. The latter has been in use in Bermuda since 1931 and has now been modified in several minor respects.

Western Canada is extremely fortunate that threshed grain is not attacked to any extent by stored-products pests. Eastern Canada, particularly Ontario, is not so fortunate, as severe losses may be sustained by the ravages of the granary weevil, not only in elevator storage but also in farmers' bins.

Some of the worst fires on farms arise from the careless use of gasoline and oil. A useful and effective home made fire extinguisher is a large metal pail full of sand with a handy shovel in it. A heavy blanket of sand will usually smother flames quickly and in the event of early application may prevent serious loss.

Hon. George Black, M.P., for the Yukon, has resigned as speaker of the House of Commons, a position he has filled very ably for a number of years. His resignation is due to ill health.

Lord Rodney, the Alberta rancher, speaking in London, Eng., suggested that British families be located in the Dominion in groups and under the direction of a manager.

Without any word from their leader, Hon. Mackenzie King, to guide

## Poultry Work Profitable and Getting Better

In both eggs and market poultry the year 1934 was, on the whole, more profitable to producers than was 1933 and there is every prospect that in 1935 the farm poultry flock will again be a steady and reliable source of farm income, but prospects, both on the domestic and export markets, point more to the need of an improvement in quality than to the desirability of an increase in volume. The brightest spot in the Canadian poultry industry at the moment is the opportunity for increasing the export trade in market poultry. Official reports from England indicate that this opportunity in poultry products stands second only to that of bacon.

The average farm producer depends to a large extent on profitable spring egg prices to derive a satisfactory revenue from his poultry flock. During the spring of 1934 prices were two or three cents above those of 1933. No evidence available that these prices were higher than the domestic demand warranted, but there is not a doubt but that the higher prices paid had a bearing on the lower quantity exported, especially with the British market for fall shipment ranging from 3 to 6 pence per long hundred less than a year ago.

As it is not uncommon egg prices during the summer months were rather depressed and the most urgent need of the egg producer is to find some way to maintain buoyant prices during those months. Undoubtedly one important reason for unsatisfactory summer prices is the general mediocre quality of eggs marketed at that season. Producers can do much to help normal conditions during the summer by improving summer production methods, more frequent collection and in the interval before shipment making sure the eggs are kept in the coolest, driest place on the farm.

them, many of the Liberal editors are slamming Premier Bennett's new deal program in the good old Liberal way. They may find themselves in an embarrassing position if and when their leader does speak. But anyway they will have said most of the nasty things about the Premier and that will be off their chests.

The Financial News of Vancouver is very uneasy. They do not like the provincial government, nor the mayor of Vancouver nor Premier Bennett's idea of putting a creek reign on the men who deal in money or stocks or other people's money or stocks. But the Financial News can only see that small class of people—they are the world, and should be allowed to do as they please.

Vancouver seems to be running wild with gunmen and robbers. The city is apparently being cleaned up. The underworld, perhaps, has been disturbed and the denizens driven out onto the streets and forced to make a living by robbery with threats of violence or what have you?

Fernie, always considered one of the bright spots in British Columbia, has got into difficulties and a commissioner has been appointed to run the city's business.

The Ladies of New Hazelton will give a St. Patrick's Dance in the New Hazelton Hall on March 15. Further particulars later.

## PRACTICAL PARAGRAPHS

By John Edwin Price

"Every end brings a new beginning:  
New dreams to dream, new worlds  
for winning."

So sings Edwin Markham. By long  
custom one hundred and twenty mil-  
lion people in the United States and  
fifty million people in the United King-  
dom think of making some new be-  
ginnings January first of each year.  
Should these two groups of people re-  
solve this year to control future world  
wars through economic boycott the  
peace of the world would be won.

A man who doesn't believe a thing  
can be done will usually, if honest to  
himself, not attempt it. On the other  
hand many good things have been ac-  
complished by men who said that they  
didn't believe a certain thing would  
work. However, the fact that they  
proceeded to invest time and thought  
and money in it showed that "down  
inside" their faith was greater than  
their doubt. If a man is going to  
tackle something difficult he had bet-  
ter first commit murder. He had  
better first KILL, permanently dead,  
all doubts and make his mind a one  
track receiver for positive incoming  
thoughts.

Yawns have always been thought to  
be good for people. However the lady  
who recently ran a yawn marathon  
for several days proved again that one  
can get too much of a good thing. A  
gentleman who had heard his actor  
brother several times was asked why

he didn't laugh at his jokes. He said  
"One cannot yawn and laugh at the  
same time."

If during 1935 every English speak-  
ing gentleman in the world became a  
complete master of his own muscles,  
his own brain, his own nerves, his own  
emotions, the English speaking peoples  
could in less than a decade be absolute  
masters or leaders of the rest of man-  
kind. Most men respond to truly mas-  
terful leadership. Too many folks to-  
day have the jitters. They are not  
sure of themselves or wither they are  
bound. Within the innermost depths  
of every man there is the pattern the  
Maker intended the man eventually to  
be. The world needs examples in  
large numbers that that man can be  
brought into actual expression and  
contact with life.

No amount of straining, crying, agon-  
izing can remake one day of the year  
that is passed. A little careful plan-  
ning and thoughtful working out can  
make many glorious days in 1935.

Ian MacKenzie, the Scotch member  
for Vancouver, does not like Hon. R.  
B. Bennett's program of reform, and  
the worthy Scot could hold himself no  
longer. He was enroute to Ottawa for  
the opening of parliament, and at Port  
Arthur he either had to get off the  
train and make a speech or just bust.  
He told the people of Port Arthur just  
what he thought of that fellow Ben-  
nett and Ian felt better and able to  
proceed to Ottawa.

Hon. R. B. Bennett gave the last of  
a series of half hour talks over the  
radio on Tuesday night. He spoke to  
the Young Conservative Association  
of Montreal and the speech was broad-  
cast from there. The Premier is going  
on a speaking tour of Western Ontar-  
io and on to Winnipeg before long.

## RESULT OF FARM CLUB TRAIN- ING

The boy and girls farm club move-  
ment in Canada has been aptly de-  
scribed as a great extension school of  
agriculture, and the results of this  
scheme during the past twenty-odd  
years of its existence has more than  
proved that it is really the most prac-  
tical form of education for the young  
farmers. Many of the leading Cana-  
dian farmers today are proud to own  
that the foundation of their success  
was laid in the knowledge gained at  
their local boys and girls clubs, and  
every now and then some pupil finds  
himself thrust into the lime light.  
Without special mention for the suc-  
cess of the pupils have been many,  
such was the case in 1933 when Ian  
Smith, a member of the Edson Grain  
Club, won the oats title at the Inter-  
national Grain and Hay show, Chic-  
ago and now Sydney John Allsop, a  
young lad of twenty and a member of  
Grand Prairie Junior Grain Club  
since 1929, won the Hard Spring  
Wheat championship at the 1934 In-  
ternational Show.

All these outstanding successes  
have been made possible by the exten-  
sive development of the boys and the  
girls farm club movement that took  
place in 1930, when a national policy  
for the clubs was inaugurated by the  
Hon. Robt. Weir, Dominion minister

of agriculture. In 1931 the committee  
submitted its report which was accept-  
ed as a basis of organization, and  
as a result the Canadian Council on  
Boys and Girls Club work began to  
function in May of that year. Thus  
it is that considerable progress in ag-  
riculture among the young farmers  
and farmerettes of Canada is brought

to the front in a national way and  
justifies to the fullest extent the slo-  
gan of the boys' and girls farm clubs,  
"Learn to do by Doing."

The district has been visited by a  
second cold snap, but the temperature  
did not get quite so low as at Christ-  
mas time.

## The food your family likes best is the EASIEST TO PREPARE

BREAKFAST is ready in a jiffy, when it's  
Kellogg's Corn Flakes. Just lift the top of  
the easy-open package. Break the seal of the  
inner WAXTITE bag. Pour the crisp, oven-  
fresh flakes into bowls.

That's all. No cooking. No fuming over a  
hot stove. Kellogg's Corn Flakes are already  
cooked—thoroughly and carefully. That's  
one reason they're so nourishing and easy to  
digest.

Every member of the family enjoys the  
matchless flavor of Kellogg's Corn Flakes.  
You're always safe in serving the world's most  
popular cereal. Try Kellogg's at lunch-time.  
Give them to the children for supper. They  
encourage restful sleep. Made by Kellogg in  
London, Ontario.

*Kellogg's for flavor*

Ask!

Ask!

Ask!

He who asks most gets most. There is no getting  
away from the truth. It is something like the tortoise  
and the hare. The race in business is not to the  
swift, nor to the clever, nor to the brilliant man, but  
to the man who is most diligent—to the man who  
keeps on doing his plain duty.

You are a retailer. You want to get business.  
You want to swell each day's sales. Well, you will sell  
more each day if you ask! ask, ask! buyers to buy  
your goods.

You can hardly go around canvassing homes and  
buyers face to face. This practice would be too  
costly, though undoubtedly would be effective. But  
you can see newspaper advertising; in this way you  
can do your asking for business. You are not requir-  
ed by the buying public to do smart advertising. The  
public just wants to be told what you have to sell;  
and if you will add reasons why the public should  
buy what you offer, then you will get more custom-  
ers. The public wants information, and it won't ob-  
ject to a little urging. Spending money is for most  
people a serious matter, and they therefore like retail  
merchants' advertisements to be plain, straightforward  
statements of fact.

# THE TERRACE NEWS

DL. 13

TERRACE, B. C., WEDNESDAY, JANUARY 2, 1935

NO. 7

## Terrace Notes

Norman Moorehouse returned to the east on Thursday and Mrs. Moorehouse will remain for a time with her parents, Mr. and Mrs. W. A. Kirkpatrick.

James McGlashan was a visitor to Rupert last week.

Miss Margaret Kenney, daughter of E. and Mrs. Kenney, is a guest of Miss Mary Helen Orme in Prince Rupert.

After a week of severe frosts and heavy winds the weather took a decided change for the better early on Monday. Some snow fell overnight and the temperature was much higher by daylight. Monday, though cloudy was free of wind and the people enjoyed themselves again.

Lawrence Brooks, second son of Mr. and Mrs. Thos. Brooks, arrived from Winnipeg on Tuesday and intends to spend some time here before returning to the prairie city.

until the middle of the week, but by Sunday the lake was covered with a sheet about a foot thick. A number of the younger set made the trip on Sunday and found the surface perfect for skating, and they say they had the best skating they have had for years.

Wong Lucy Yen, owner of the Terrace Cafe property, returned at the end of the week after a holiday of over a year in China. Wong has a wide circle of friends here and he has been busy renewing old acquaintances before resuming his commercial life.

Clarence Michael got away with two of the prizes at the turkey shoot on Sunday last, including the big 18 lb. bird. The other was a goose.

Garth Griffith, who has been holidaying at Pacific for the past week as the guest of Mr. and Mrs. T. H. McCubbin, returned to town on Saturday.

Social events were much curtailed during the past week. The cold snap kept many people busy stoking to keep their homes comfortable.

Ice did not form on Lakelse Lake Has your subscription been paid yet?

## Weather in Terrace

The snow that came on Sunday afternoon found local public works officials well prepared. During the last few days all local roads have been plowed out, these including Lakelse and Kalum Lake roads, and the highway. By tackling the work early in the season a good smooth bottom has been secured which means more trips per day and a longer season.

Terrace merchants report that the seasonal business this December has been considerably greater than for a year or two. Earlier in the season a better volume had been anticipated, and buying was on a larger scale, so that the local stores had a wider range of goods for their customers to pick from. Their foresight, evidently, was justified by the turnover secured. In addition to the Christmas trade merchants state that the 1934 business showed a considerable increase over 1933. One merchant told the Terrace News that every month of the past year showed a gain in volume over the corresponding month of 1933. Local business men, on the whole, are looking forward to this new year to bring a still further improvement in conditions, and if some of our citizens would only give the merchant a chance to show how his prices compare with those of the big catalogues it is certain that a marked improvement in local conditions would result.

## Mining Prospects Bright

Those who are closely in touch with conditions predict that with the coming of spring there will be a lot of activity in local mining circles. During the past season a lot of prospecting was done, much of it in a very quiet way, and little has been said about the results secured. Coupled with this there has been some very good work done in bringing various groups together, making projects of sufficient size to interest outside mining men. Those who have been directing and carrying on this work have devoted a lot of time in placing their propositions before interests who might be favorable, and some very satisfactory progress has been made. In view of these various branches of work with local mineral prospects there is strong grounds for the expectation of something definite being done towards opening up several of the properties during the coming season.

Arthur Vanderlip of Parksville, V. I. is spending a two weeks holiday in Terrace with his mother, Mrs. Wm. Vanderlip, and his sister, Mrs. B. J. He did come over was very poor quality for holiday time.

## NATIVE SONS AT BANQUET

The Terrace of the Native Sons of Canada held their annual Christmas banquet at the Philbert Hotel at 2.30 p.m. on Christmas Day. Eighteen of the members of the Assembly were in attendance. Gordon Temple, mine host of the hotel, and himself a Native Son, excelled himself in the viands provided, and all present spoke highly of the skill of the staff, both in the kitchen and in the dining room.

The L. O. L. put on the annual New Year dance on Monday night. Several prizes were up for holders of lucky tickets.

W. C. Sparkes is able to be around again after nursing a cold for a few days.

Jack Wrathall of Prince Rupert is holidaying here as a guest of Mr. and Mrs. R. Christy.

Jack Bignore spent the holidays in Prince Rupert and during his absence Miss Elliott Head filled his job.

New Years Eve held out bright promises for the coming year when local timber operators started a number of extra men in various woods operations

During the Christmas season the radio fans in these parts were greatly disappointed. The World broadcast was only indifferent, and since then there has been no radio to speak of. Perhaps it is just as well as what lit. Vanderlip, and his sister, Mrs. B. J. He did come over was very poor quality for holiday time.

As the New Year is coming in we find this world full of worry and woe, and some people tell us we are going to the dogs. As a result we have increased our stocks of selected brands of **DOG BISCUITS** and offer them at attractive prices.

## Our Grocery Department

In spite of this dismal dullness we go appreciating any little silver lining that may be shining through the clouds, and laugh in the face of high rates and bad weather.

## For Camp Outfitting

is just being replenished with a new stock which will give delight to every life.

We also carry a good stock of **Hardware, Clothing and Foodstuffs.** These lines will meet the hardest tasks of man, beast and equipment.

## INVITATIONS COUNT!

Many an non-advertising retailer keeps back from advertising just because he feels that it is needless to advertise in a big way and because he is not yet ready to advertise in a big way. To keep back from our newspaper until you are ready to use big space is just as foolish as would be keeping a child out of school until it had the ability to pass its matriculation. Beginners in every form of enterprise need to go warily; until experience and practice and growing ability warrant them to attempt larger things, they should proceed cautiously.

It will pay some merchants to use classified advertisements and small spaces of two or three inches. These little advertisements will surely be seen and read by newspaper readers. Make small advertisements offer special merchandise. Change them frequently. A quick succession of little advertisements everyone of which is alive, will of a certainty effect sales with a track now customers. The thing to be frightened of is dullness; a retail store which does not talk to the public by means of newspaper advertisements loses a lot of good trade. The public will go where it is invited to go.

# Regularity!

## TO MERCHANTS

"You sweep out, you trim the windows, you dust off the counters you make up new price cards, you unpack and arrange new stock, you plan your merchandise showings, you do these and a hundred other necessary jobs, REGULARLY in the normal conduct of your business.

"But how about the biggest job of all—contacting the people and telling them repeatedly that you are in business and have the goods they need....Do you do that REGULARLY? Do you figure you are going to get your share of the available business if you don't tell folks about your merchandise and service at REGULAR intervals instead of doing the job spasmodically or not at all?

"By all known tests, experience and thousands of records, the acknowledged best-of-all medium for REGULARITY is advertising in the local newspaper. A newspaper going REGULARLY in to the homes of your prospective customers, not only in your town but the surrounding territory as well, makes it easy enough for anyone to see how your local newspaper offers you the finest kind of a vehicle for carrying your business message REGULARLY to the people.

"And don't think that these folks won't miss your REGULARITY of advertising. They look for their newspaper REGULARLY, study its advertising (yours, if it is there) REGULARLY.

"And what's more, you'll find they are buying fairly REGULARLY, too, if you'll just check up, especially with the advertisers who do use space REGULARLY.

YOURS FOR MORE REGULARITY IN ADVERTISING

## Doings Around Home

Of interest to you and your friends

Miss Earl of the Kisplox spent a few days a guest at the nurses' residence.

Cons. Grant reports that everything in Hazelton was nice and quiet over the Christmas holidays. He had only one call and that was to stop two brothers quarrelling about who was to be Santa Claus. He got one of the bad boys, but the other saw him first and beat it. He, the constable, had a talk later with the run-a-way.

Miss Oris Sargent, who has been attending the convent in Prince Rupert, is spending the Christmas holidays in New Hazelton with her parents.

Next Sunday night services will be held in the New Hazelton church in the evening at 7.30, and in Hazelton United Church in the morning at 11 o'clock.

Cattle sales at stockyards during the present year are 15 per cent in excess of sales during 1933, and, says, the live stock market report, the surplus reflects the large number of cattle on farms which have been due to increases in production and accumulation from the previous year.

Has your subscription been paid yet?

When you need

## Dry Cleaning or Laundry service

let us do it for you.

Send them by mail or express and we will do the rest.

**Pioneer Laundry  
(1921) Limited  
Prince Rupert, B.C.**

The grand championship carload of sheep shown at the Chicago Exhibition was the property of C. J. Brodie, Stouffville, Ont., and was sold for \$18.50 per cwt., the highest price since 1930.

The estimated total increase of nearly 113 million dollars in the value of the 1934 crops in Canada, as compared with 1933, is largely accounted for by increases in round figures of 37 million dollars in hay and clover, 38½ million dollars in wheat, 31 million dollars in oats, and 10½ million dollars in barley.

The ice harvest is now under way in New Hazelton. The ice is about 18 inches thick already and it is all clear blue ice, the best kind for packing away.

Mr. and Mrs. C. Miljore and family of New Hazelton spent the Christmas holidays at Longworth.

On Monday afternoon the occupants of the apartments above Myros & Smith store in Hazelton, got quite a scare when it was discovered that a fire had broken out in the apartment occupied by Mrs. Cox. It was put out before any damage was done.

It's only 12 months to Christmas—do your shopping early.

The young people of the town were entertained on New Years night at the home of Mrs. Carl Poulson.

Cons. Hanford of the R.C.M.P. who has been on vacation, is back on the job again.

Miss Fanny McLaren, R.N., of Terrace spent a few days on the Hazelton Hospital staff relieving Miss Enid Campbell who went to her home at Vanderhoof for the New Year holiday. At the dance in Hazelton on New Years Eve she gave a couple of solo dances. Miss McLaren is very clever as a fancy dancer.

**REMOVAL**—The subscriber has been obliged to remove, and has opened his HEADQUARTERS for NEW IDEAS and SWIPES in St. Ananias St., nearly opposite the Bird in the Hand Tavern where he solicits a continuance of the patronage of his customers.—WILL JACK.

Arrangements have been made by the Departments of Education and of Mines to carry on the prospectors classes in various centres throughout the province. These classes will be January.

There was a dance in Hazelton on New Years Eve, but up to midnight it was not very well patronized.

## The Lure of the Lakes

Music, moonlight, glorious lake breezes with six hundred miles of sailing on the Canadian Pacific's Great Lakes vessels S.S. Assiniboia, Keewatin and Manitoba are at the disposal of passengers on the company's lines travelling from eastern to western Canadian points or as a pleasant diversion on the returning journey for the small added cost of ten dollars for berth and meals each way.

This delightful prospect follows the arrangement by the

Canadian Pacific that four-piece orchestras will, for a period of nine weeks, dispense music on the Assiniboia and Keewatin en route while the vessels pass through Georgian Bay, across the northern part of Lake Huron, through the Sault Ste. Marie locks and thence to Fort William on Lake Superior, a pleasant, lazy and restful journey of 39 hours from Port McNicoll or Owen Sound.

To all those who are planning

a trip to or from the west, this economical optional trip embracing dancing, cozy cabins, plenty of deck space and luxuriously-appointed dining saloons; with glimpses of ever-changing scenery or bracing stretches of blue water, is one that cannot be overlooked. It is at the disposal of every vacationist and this season promises to be immensely popular not only with Canadians but with visitors to this country as well.

Reports from Two Bros. Lake are encouraging to those who have interests there. It is a placer country and testing, prospecting and engineering work were all satisfactory. This new year should see a lot of activity and a lot of gold produced.

OL. 13

TERRACE, B. C., WEDNESDAY, JANUARY 9, 1935

NO. 8

## Terrace Notes

Lakelse Valley Community Club held a very enjoyable dance in the Community hall on Friday night. Music was furnished by the Terrace orchestra.

Mrs. J. Franks, who has been ill for some time, went to Prince Rupert last Thursday for medical treatment. She was threatened with pneumonia. Mr. Franks accompanied her to the coast and he returned the next day.

The Kitsumgallum Farmers' Institute is busy winding up the 1934 business and latter in the month will hold the annual meeting. It is expected that District Agriculturist Don Sutherland will be here for the meeting.

Public works snow plows were out on Sunday after the heavy fall and before they finished most of the roads over which children would have to go over enroute to school were open.

Joe Paquette is busy getting his logs to his new place on the Lakelse road. He intends to have his house finished and move in by the time spring comes.

A communication from the department of lands states that it is hoped that a revised map of the Bulkley sheet of the Pre-emptors map will be included in the current years program. The old edition is out of print and for in from Kalum Lake at the week end.

Bill Christy started to cut ice on the Lakelse side of the river this week. He has a nice quiet little bay to work in and is getting a fine quality of sixteen inch ice.

P. Hoffman and his son Harry came Mrs. P. Hoffman, who has been on

Mrs. P. Hoffman, who has been on a visit to Germany, landed in New York on Sunday and is expected home in the next few days.

Claire Giggy is always up and coming, and when the heavy snow came he stepped out and showed that he's not waiting for the government to do everything for him. He showed up on the streets on Saturday with a snow plow fastened to the front of his logging truck. The rig worked fine and he had the road opened to his skid ways without any delay.

## Rabbits are in Poor Condition Are Diseased

During the last three weeks coccidiosis or tuberculaemia has been detected in snowshoe rabbits in the Terrace District. This disease, usually known as spotted liver, shows as white spots on the liver. In the early stages these spots, averaging in size about that of a sweet pea seed, are often found on the under side of the liver, but are also sometimes found on the upper side, and then embedded in the tissues.

Last summer a naturalist of international fame visited the district and in conversation with local men issued warnings as to the danger of handling rabbits suffering from this complaint. The disease is one of the parasite type and is carried from animal to animal in the form of minute spores. These spores often are found on the fur, and frequently get on the hands of those skinning them and preparing the meat for food. From the hands the spores find their way to the digestive tract of the human, and bring on a condition of fever. In 1933 a party of four experts went into the N. W. Territories to investigate the occurrence of the disease, and in spite of all precautions two of the party contracted tuberculaemia.

For several years prior to 1932 diseased rabbits were scarce. In that year a large number of diseased animals were reported, and the numbers increased in 1933. In view of this fact, and also that the winter of 1934-5 is the 7th winter of the cycle of rabbit life, it may anticipated that an increasing number of rabbits taken will be carrying coccidium spores, and these animals, therefore, will be a source of danger to any who handle them.

### OUR CRITICS AT WORK

We have been informed that some few have taken exception to our remarks about the unpatriotic habit of buying everything possible out of town from mail order houses which pay no taxes nor contribute anything to the welfare of the community. Of course we do not expect that everyone is going to agree with us, and very often it happens that very few agree with us on some matters. Nevertheless we are not ashamed to express our opinions in print and we would be glad to publish the opinions of any who have opinions to express, whether they be contrary to ours or not. Some of the folk who happen to be loudest in their criticisms we would be glad to have them on our mailing list, and if they did not broaden their views they would at least be showing a patriotic spirit and a willingness to learn. It is not nice to read your neighbor's paper or to get free reading in the drug store where the paper is displayed for sale. Two dollars a year is a small sum to pay for a local paper, and it also gives one the privilege of telling the editor in print what you think of him or his arguments. A non-subscriber can hardly do that with good grace.

The only unseemly happening in the New Year's celebration was when a person or persons unknown heaved a brick through the bank manager's office. The party or parties responsible are not known and they are not telling. A Sherlock Holmes might eliminate most of the people in town and start on those who have recently sought a loan or wanted to overdraw their account.

## Are Killing the Home Market for Themselves

We were talking with a farmer the other day and he said "I didn't put in much crop this year. If its grown a fellow cannot sell it, or if he sells it he gets nothing for it."

We've heard this scores of times in the last few years. There is no use beating about the bush; farming is in the doldrums in the Terrace district.

Local growers have always looked to Prince Rupert as their main outlet, with Anyox as another good market. Prince Rupert markets have fluctuated with the price of halibut and salmon. Fishing is a tough life, and when the fisherman is making money he wants the best for himself and his family. Some of the best things he's wanted are Skeena river spuds, turnips, strawberries and the like. When prices are down, as they have been for some years, he just could not buy and market prices went haywire.

Good prices for Prince Rupert fish depend upon buying power in the big eastern centres. That in turn means good wages for the workers. Then these people can meet the price of a good juicy halibut steak.

Anyox exists for only one thing—the production of copper. Copper means electric irons, toasters, vacuum cleaners, dynamos and a multitude of other things electric in nature. But these things cost good money to buy, and that again means good wages in the big centres. Now we hear Anyox, with millions of pounds of copper on the beach, is likely to close down. The market is not there for the stuff produced, and what is sold brings too small a price.

The Mass Buying Commission has made clear one thing; that the big mail order houses and chain stores are guilty of driving wages down. They have paid low wages to their employees, they have forced prices down for manufacturers and that in turn resulted in low wages for the operatives. Wages as shown in evidence would scarcely provide beans for the worker let alone a little pork with it; halibut stakes and copper goods were right out of sight, and western producers have suffered in the drop in prices on their primary products.

And that brings us right back to the place we started from.

As our farmer friend left us we saw he was carrying two bulky packages from mail order houses.

And we are quite sure he never realized when he sent the money out of town that he was encouraging the very concerns who were making it impossible for him to get a decent return for the stuff he grew.

Trappers whose lines run through settlements need to exercise some care that they do not antagonize those whose lands they trap over. It is a matter of courtesy on the part of the landowners to allow the trap line to include their properties, and when the family cat comes home with a damaged paw, or an inquisitive rooster is strangled by the jaws of a trap there's likely to be something doing, and in all probability a notice served that trap ping on that particular property is forbidden. It's just a matter of using a little common sense and courtesy, and then everyone is happy.

In the Terrace district the cut of saw logs is a good barometer of the business conditions. Forest branch figures give 1934 are just about completed and show that the cut was 300 per cent over 1933.

For that cough and cold

## R. W. RILEY, Phm. B. Terrace

E. T. Kenney, M.L.A., spent the first few days of the new year home with a severe cold.

Latest reports from the Interior would indicate that Art Beaudin had some troubles left to face after he left town. Word did not come through on schedule but from other sources it was learned that on the trip to Barkerville his party was stalled on the road and some heavy work had to be done before they got under way again.

We were asked the other day why a certain holiday function was not given prior publicity. We had to tell them that a paper is in business to sell advertising space. We pointed out that it was unfortunate that some folks missed the affair, but that, with advertising space selling at such reasonable rates there is no excuse for any one being disappointed.

Miss Barbara Sherwood entertained a number of her friends at the tea hour on Thursday.

## O. T. SUNDAL CO. Terrace, B. C.

As the New Year is coming in we find this world full of worry and woe, and some people tell us we are going to the dogs. As a result we have increased our stocks of selected brands of DOG BISCUITS and offer them at attractive prices.

In spite of this dismal dullness we go appreciating any little silver lining that may be shining through the clouds, and laugh in the face of high rates and bad weather.

## Our Grocery Department

is just being replenished with a new stock which will give delight to every bite.

## For Camp Outfitting

We also carry a good stock of Hardware, Clothing and Foodstuffs. These lines will meet the hardest tasks of man, beast and equipment.

## INVITATIONS COUNT!

Many an non-advertising retailer keeps back from advertising just because he feels that it is necessary to advertise in a big way and because he is not yet ready to advertise in a big way. To keep back from our newspaper until you are ready to use big space is just as foolish as would be keeping a child out of school until it had the ability to pass its matriculation. Beginners in every form of enterprise need to go warily; until experience and practice and growing ability warrant them to attempt larger things, they should proceed cautiously.

It will pay some merchants to use classified advertisements and small spaces of two or three inches. These little advertisements will surely be seen and read by newspaper readers. Make small advertisements offer special merchandise. Change them frequently. A quick succession of little advertisements everyone of which is alive, will of a certainty effect sales will attract new customers. The thing to be frightened of is dumbness; a retail store which does not talk to the public by means of newspaper advertisements loses a lot of good trade. The public will go where it is invited to go.

# Regularity!

## TO MERCHANTS

"You sweep out, you trim the windows, you dust off the counters you make up new price cards, you unpack and arrange new stock, you plan your merchandise showings, you do these and a hundred other necessary jobs, REGULARLY in the normal conduct of your business.

"But how about the biggest job of all—contacting the people and telling them repeatedly that you are in business and have the goods they need....Do you do that REGULARLY? Do you figure you are going to get your share of the available business if you don't tell folks about your merchandise and service at REGULAR intervals instead of doing the job spasmodically or not at all?

"By all known tests, experience and thousands of records, the acknowledged best-of-all medium for REGULARITY is advertising in the local newspaper. A newspaper going REGULARLY in to the homes of your prospective customers, not only in your town but the surrounding territory as well, makes it easy enough for anyone to see how your local newspaper offers you the finest kind of a vehicle for carrying your business message REGULARLY to the people.

"And don't think that these folks won't miss your REGULARITY of advertising. They looey for their newspaper REGULARLY, study its advertising (yours, if it is there) REGULARLY.

"And what's more, you'll find they are buying fairly REGULARLY, too, if you'll just check up, especially with the advertisers who do use space REGULARLY.

YOURS FOR MORE REGULARITY IN ADVERTISING

## Bulkley Cow Testing Asso.

Following is a list of cows in the above Association that gave 55 lbs. or more of butter fat for the month of for the month of December, 1934

Name of Cow	Breed	Lbs. Milk	Lbs. Fat	Owner

158 Peggy	Holstein	828	30.6	D. Greene

Figures in brackets indicate number of days since freshening.

J. G. Manning  
Supervisor

The winter harvest in the New Hazelton district includes this year ice, cedar poles and piling and railway ties. The harvest is now on in all lines.

There is a market at New Hazelton for several cars of birch wood and one or two cars of dry jack pine, in four foot lengths.

Earl Spooner went to Barkerville with Alfred Hall on Monday to help

out in case the truck got into difficulty. He may stay in Barkerville if he sees anything to do or does not get home sick.

Mrs. Fred Sait is a patient in the Hazelton Hospital, having recently undergone an operation. Latest reports are to the effect that she is making a good recovery.

The schools opened on Tuesday last for the midwinter term.

## Doings Around Home

### Of interest to you and your friends

Old Charlie returned from the hospital on Friday last after a couple of weeks stay. He is feeling a great deal better and is loud in his praise of the way he was treated. He says he had the time of his life.

The Ladies Aid of New Hazelton is to meet at the home of Mrs. Sawle on Thursday afternoon. As there is business of some importance to discuss all the members are asked to be present.

Several train loads of wheat have gone through the past week or so and it is stated that three hundred cars are to be sent to Rupert this winter. That should help Prince Rupert a good deal as it also means quite a number of ships loading at that port.

Several more car loads of poles are being loaded for immediate shipment to the east.

The series of telephone bridge parties held under the auspices of the W. A. to the H. H. were concluded last month and the prizes were won by Mrs. John Newick and C. H. Sawle.

The many friends of Charles Matheson of Topley will be glad to learn that his condition now is very much improved and he is on the road to recovery. He was reported very dangerously ill, but a couple of weeks ago he was admitted to the Hazelton Hospital and since then has shown a very marked improvement.

Standardized grading appears now to have become definitely established as a permanent feature in practically all phases of the poultry trade in Canada.

### CARD OF THANKS

We wish to thank the following who so generously contributed towards the United Church Sunday School Christmas tree:—R. S. Sargent, Myros & Smith, Hudson's Bay Co., C. W. Dawson and Dr. H. C. Wrinch, and last, but not least, Geo. Morrison for his act as Santa Claus.

We also wish to thank all those who helped to make the Christmas tree entertainment at New Hazelton so enjoyable.

Mr. and Mrs. O. Grondahl

### Terrace Notes

O. T. Sundal is moving the building lately occupied by H. M. Willson to a new location immediately west of the Orange Hall.

The Canadian National Railways are making repairs to the local depot.

Dr. S. G. Mills made the trip to Rupert on Tuesday, returning home the next night.

Mrs. Norman Moorehouse returned to Prince Rupert on Tuesday after a holiday here with her parents.

The snow plow was out the latter part of last week, hitting the new snow while it was soft and easy to move.

We're getting new subscribers these days. A subscription to the Terrace News is only \$2.00 for 52 issues. Get on our lists as a good start for the new year. You will be kept informed of what is going on.

Fred Mist who has been laid up for some time with an attack of appendicitis is able to be around again.

When you need

### Dry Cleaning or Laundry service

let us do it for you.

Send them by mail or express and we will do the rest.

### Pioneer Laundry (1921) Limited Prince Rupert, B.C.

### COOPER H. WRINCH Licensed Insurance Agent

Handling all types of insurance, including

### Fire, Automobile, Sickness and Accident

HAZELTON, B. C.

Mrs. W. A. Kirkpatrick returned on Friday from a trip to Prince Rupert.

The New Years dance put on by the Orange Order was very well attended and thoroughly enjoyed by all. Dr. S. G. Mills found his luck was in as he held the lucky ticket entitling him to the big turkey.

Miss Margaret Mussallem spent the holidays here.

Miss M. Welch, Miss Longworth, R. Makepeace returned from the south on Wednesday. They had to cut the holiday short as a return by a late C. P.R. boat would involved a considerable extra payment.

Garth Griffith, after attending the New Year dance here, returned to Pacific and spent the rest of the holiday with Mr. and Mrs. T. H. McCubbin.

Mr. and Mrs. A. Attree entertained a party of young folks at their home on Thursday evening.

M. and Mrs. J. Loen entertained about twenty of their friends on Friday evening.

Miss Barbara Sherwood left for Rupert on Saturday. She will resume her studies at the convent.

A number of young folks had a jolly time on Saturday night. The I.O.O.F. hall was used and as a number of those present had their birthdays at about that date a joint celebration was held.

Mrs. T. H. Smith was hostess at her home on Thursday evening when she entertained the members of her club.

Will Robinson is always anxious to report the doings of various organizations. When you have something to give to the public tell him about it, and give him some advertising before hand. It helps your local paper.

# THE TERRACE NEWS

VOL. 13

TERRACE, B. C., WEDNESDAY, JANUARY 16, 1935

NO. 9

## Terrace Notes

One of the local residents of long standing told us recently that Butterfield, the columnist on the Province, is not well informed regarding Fleet St., in London, Eng., nor does he know the geography of Scotland. If that is all Mr. Butterfield is deficient in, he should get by for a while yet.

Bert Swain has taken the agency for Terrace and immediate vicinity of the Ford car and truck. He has built a new garage and show room, as well as new quarters for his office. In future he will be able to sell you a new car or truck, or supply parts and make repairs. He has the garage going now and is ready to service your car. He will have a new car in the show room before long.

Bert Swain told the News on Sunday that the ice crop this year is the best quality he has seen for some years. During the cutting season the weather stayed cold enough to hold the ice in good shape, and the absence of fresh snow made the harvesting comparatively easy.

The annual meeting of the Woman's Auxiliary of St. Matthews church was

held at the rectory on Wednesday afternoon, when the following officers were chosen:—Pres., Mrs. B. West; Vice-Pres., Mrs. A. C. Head; Sec.-Treas. Mrs. J. E. Birchall.

Fred Mist left for Prince Rupert on Thursday where he intends to secure further advice on his attack of appendicitis. He was accompanied to the coast by his mother, Mrs. H. Mist.

After clearing out the village streets and then opening up the Lakelse road the snow plow started on Saturday on the highway to Usk.

Cons. H. L. McKenney made a trip to Shames on Wednesday and returned with a Hazelton Indian who is being charged with illegal trapping.

There are dog fights and dog fights. Some are more serious than others and one of the more serious ones took place outside E. T. Kenney's store the other day. Two big dogs tied into each other and worked their way to the entrance of the store. Result—one of the dogs went through the store window and the fight was over and Ed. had a new glass to put in.

Harry Attree cut one of his fingers badly while cutting meat on Monday.

## J. E. Panter is C. C. F. Choice For Dominion

J. E. Panter of Smithers was made the unanimous choice of the C. C. F. convention held in Prince Rupert last week. The first vote, however, gave him only a small majority. The delegates from along the line representing Smithers, Pacific, etc., were strong for Panter. Terrace delegates, however, did not seem to be so strong.

Mr. Panter is pretty well known in the district, having carried on quite a strong campaign in the last provincial campaign and his supporters figure he will do better this time. He will be opposed to Olof Hanson the present member from Skeena, and a Liberal. The Conservatives have not yet decided whether they will put a man in the field or not. But even in a two man campaign Mr. Panter will find that he has a lot of new territory to cover as the Dominion riding embraces several provincial ridings.

## MASONIC VISITORS HERE

A party of fifteen members of the Masonic Order made the trip from Prince Rupert on Wednesday to attend the installation of officers of the local lodge. The party was headed by D.D.G.M., W. D. Vance, and after taking part in the proceedings returned to the coast on Thursday.

Among the visiting Masons from the coast city were W. D. Vance, D.D.G.M., C. V. Evitt, G. P. Tinker, W. H. Wilson Murray, Dr. R. G. Large, Geo. Wilkinson, W. M. Brown, F. S. Walton, C. H. Orme, W. M. McAfee, F. A. McCullum, W. H. Tobey, Ben Lipsin, Thomas McMeekin and H. W. Birch.

## SOLD WOOD FOR CHRISTMAS

Just before Christmas one of our local resident went into a local store and spoke to the head of the concern: "How's chances to sell you some wood? We've a cheque coming but it will not be here in time for Christmas, and we don't have a cent to get Christmas stuff unless I can sell some wood." The merchant told him to deliver five ricks, so that the family enjoyed the seasonable delicacies during the holiday. Says the merchant: "Local merchants must be some good in a community. I wonder how much Christmas that family would have had if they had had to sell their wood to a mail order house?"

## OLD SALT WENT OVERBOARD

A policeman, his son and the coroner took a ride on a go-devil and while the son was running the motive power the coroner, an old salt, was at the rudder. The go-devil floundered in the deep snow and finally took a dive to the starboard side and that is just where the old salt was sitting. For lack of room his feet were hanging overboard. As the craft dove into the snow and then swung to miss the big drift of snow the old salt got his feet tangled in the snow and was pulled over board. His absence was not noticed until the policeman began to feel cold due to the absence of the coroner's broad back. The go-devil was put into port and a hunt made for the miss "salt". They found him after a while shaking the snow out of his hair and eyes and saying things that he did not learn in Sunday school.

T. J. Kirkpatrick went to Rupert last week as C. C. F. delegate to the nominating convention.

## WATER NOTICE

### Diversion and Use

Take Notice that Nicholson Creek Mining Corporation whose address is Usk, B. C. will apply for a License to take and use 8.33 cubic feet per second of water out of Nicholson creek, also known as Lowrie creek, which flows easterly and drains into the Skeena river about 300 feet east of the east boundary of Lot 5979, Range 5, Coast District.

The water will be diverted at a point about 1500 feet north-west of the north-east corner of Lot 5979, and will be used for power purposes upon the land described as west half of west half of Lot 921, Range 5, Coast District.

This notice was posted on the ground on the 11th day of January, District.

A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Smithers, B. C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria B. C., within thirty days after the first appearance of this notice in a local newspaper.

Nicholson Creek Mining Corporation  
Applicant  
Fred Nash, Agent

The date of the first publication of this notice is January 10th, 1935.

A shelf carrying about \$25.00 worth of crockery, etc., in the home of Mrs. B. Colbachine dropped away from the wall the other day and the crockery was badly damaged. Other ladies in town are now looking to the moorings of their own shelves.

Mr. and Mrs. C. Raven hiked in from the hatchery at the end of the week and returned Sunday.

In spite of the sudden drop in temperature some basket ball was played on Saturday night, but the class of play was not up to the average. The Reds won from the Aces.

For the first time in some years a serious sleighing accident happened on Sunday night on Finter's Hill. Corbin King and Lois Doney were going down the hill when the sleigh swung off the track and hit a stump. King suffered severe cuts and bruises and a broken nose, while Doney was cut badly over the eye. King went down to Rupert on Tuesday for further repairs.

Miss Fanny McLarch, R.N., returned to Terrace on Saturday after supplying on the nursing staff at the Hazelton Hospital for a short time.

President Duncan Kerr says that the next debate to be staged by the Terrace Assembly of the Native Sons of Canada will be a pipkin. The boys are going to debate on the Townsoul Revolving Plan, and the gong sounds at 8.00 p.m. on January 31st.

## O. T. SUNDAL CO. Terrace, B. C.

As the New Year is coming in we find this world full of worry and woe, and some people tell us we are going to the dogs. As a result we have increased our stocks of selected brands of DOG BISCUITS and offer them at attractive prices.

In spite of this dismal dullness we go appreciating any little silver lining that may be shining through the clouds, and laugh in the face of high rates and bad weather.

## Our Grocery Department

is just being replenished with a new stock which will give delight to every bite.

## For Camp Outfitting

We also carry a good stock of Hardware, Clothing and Foodstuffs. These lines will meet the hardest tasks of man, beast and equipment.

## E. T. KENNEY, LIMITED General Hardware

## When you use the columns of your LOCAL NEWSPAPER

You are supporting a local industry and encouraging the "Buy at Home" principal. Tell the buying public what you have and give the price.

OMINECA HERALD AND TERRACE NEWS

Are here to carry that message to the public for you. Will you use these columns?

Vancouver printers will not help build your town and community nor help sell your produce.

# Regularity!

## TO MERCHANTS

"You sweep out, you trim the windows, you dust off the counters you make up new price cards, you unpack and arrange new stock, you plan your merchandise showings, you do these and a hundred other necessary jobs, REGULARLY in the normal conduct of your business.

"But how about the biggest job of all—contacting the people and telling them repeatedly that you are in business and have the goods they need....Do you do that REGULARLY? Do you figure you are going to get your share of the available business if you don't tell folks about your merchandise and service at REGULAR intervals instead of doing the job spasmodically or not at all?

"By all known tests, experience and thousands of records, the acknowledged best-of-all medium for REGULARITY is advertising in the local newspaper. A newspaper going REGULARLY in to the homes of your prospective customers, not only in your town but the surrounding territory as well, makes it easy enough for anyone to see how your local newspaper offers you the finest kind of a vehicle for carrying your business message REGULARLY to the people.

"And don't think that these folks won't miss your REGULARITY of advertising. They look for their newspaper REGULARLY, study its advertising (yours, if it is there) REGULARLY.

"And what's more, you'll find they are buying fairly REGULARLY, too, if you'll just check up, especially with the advertisers who do use space REGULARLY.

YOURS FOR MORE REGULARITY IN ADVERTISING

### REPAIRING TILLAGE MACHINES

Careful repairing of tillage machinery each winter or early spring with replacement of doubtful or worn parts has been proven in experiments on the cost of operating farm machinery to pay large dividends by preventing major costly repairs.

Tillage implements generally receive less care and more hard knocks than any other class of farm machines.

The value of any implement can only be measured by its usefulness in acres covered, quality of work done and freedom from the necessity of costly repairs and delays. Delays due to breakdowns during the rush tillage season of spring and summer are very costly and easily prevented of the farmer, with a few tools and a little time, will check over carefully every working or wearing part long before he is going to use the machine.

Check over every machine for loose worn or stripped bolts, replace broken spring washers and check all loose or slack parts. Wheel and power lift bearings, disk boxings and all moving parts should be adjusted for wear. Clean all working parts of old grease oil, dirt and steel particles with kerosene and replace with plenty of fresh lubricants.

Make list of all new parts needed, secure these during the winter and replace the old parts before spring work starts.

Tests at the Swift Current Station have shown that thoroughly repaired implements gave trouble-free service, whereas carelessly checked over machines caused frequent loss of time and higher operating costs. Sharp cutting edges, correct alignment of draft, uniformity of depth and proper working of all moving parts will materially reduce the draft and cost of operating tillage implements.

chines caused frequent loss of time and higher operating costs. Sharp cutting edges, correct alignment of draft, uniformity of depth and proper working of all moving parts will materially reduce the draft and cost of operating tillage implements.

The election in the Saar resulted in an overwhelming majority in favor of returning to the German fold. The anti-Nazi forces may yet cause trouble.

## Doings Around Home

Of interest to you and your friends

Miss Winnifred Pendergast, school teacher at Usk, spent the Christmas holidays at her home in Squamish, and has returned to Usk for the winter term.

At New Metlakatla, where Mr. and Mrs. Robt. Tomlinson are in charge of the Indians, and epidemic of influenza has broken out and is quite serious.

Capt. G. C. Mortimer, Indian Agent, paid a visit last week to Kitwanga to straighten out some misunderstanding among the Indians re trap lines.

Cons. M. Martin, for several years on the provincial force in Smithers; has been transferred to New Denver and his place has been taken by Cons. H. H. Vickers of Revelstoke. Cons. Martin went to his new post on Thursday and took along with him a prisoner for Okalla.

Mr. and Mrs. Chas. Monk left Smithers last week for a trip to Vancouver. This is their first holiday trip for some years. They hope to be back in two or three weeks.

Charles Wilson, the Lake Kathleen ice contractor, returned the end of the week from a trip to the coast. He was on a business trip which he has hopes will mean the doubling of his ice business.

### BOBBY BURNS BRIDGE

Under the auspices of the Hazelton Golf Club a Bridge party will be held in the Venetian hall on January 25th. That night the drawing will also take place for the picture painted by Geo. Morrison.

The Board of Directors of the Hazelton Hospital will meet on Wednesday night of this week. This meeting will be preparatory to the annual meeting of the patrons of the Hospital.

The road through to Smithers is in fine shape for motoring. It is much better than at any time all summer. The ruts are all filled up with snow and the new gravel is all smoothed over by the snow plow. There is not much danger of drifting in this country, and about the only thing which is going to call for another trip of the plow will more heavy snow.

After spending several weeks in Montreal where he had been called on account of the illness of his son Delcourt, Geo. D. Parent returned to New Hazelton on Tuesday. His son is well on the way to being his old self.

Most of the more important centres in British Columbia held nomination day last Monday and a great many of the mayors were elected by acclamation. People do not seem to be very keen on looking for more trouble than they already have.

Vancouver seems to be running wild with gunmen and robbers. The city is apparently being cleaned up. The underworld, perhaps, has been disturbed and the denizens driven out onto the streets and forced to make a living by robbery with threats of violence or what have you?

Fernie, always considered one of the bright spots in British Columbia, has got into difficulties and a commissioner has been appointed to run the city's business.

The Ladies of New Hazelton will give a St. Patrick's Dance in the New Hazelton Hall on March 15. Further particulars later.
